We take a top-down approach to picking our investments, and our policy is to look for well run, strategically well-placed companies which trade at reasonable valuations. Our investment horizon is 12-24 months. A key differentiator of the CAL Balanced Fund is that we actively pursue a policy of market timing based on rigorous macroeconomic research and forecasting. We believe that determining the allocation of equity holdings is equally significant to choosing specific equities.

The team is closely monitoring all new developments and is positioned well to enter the equity market at attractive valuations.
