Capital Alliance Investments Limited

Capital Alliance Investments Ltd (CALI) has established itself as a leading wealth manager in Sri Lanka as evidenced by its Unit Trust Assets under Management of over LKR 32Bn (as at 30 Sept 2020), with Sri Lanka Insurance Corporation as our strategic Partner. CALI has been in the forefront of wealth management space and some of our milestones include:

- ✓ Largest Unit Trust Manager in Sri Lanka (as at March 2018)
- ✓ Launched Sri Lanka's first ever Quantitative Equity Fund

CAL's service offering is built on the pillars of best-in-class service and market outperformance. We are confident that our intimate knowledge of the Sri Lankan economy and our established networks within its capital markets will enable us to deliver attractive returns on your investment.

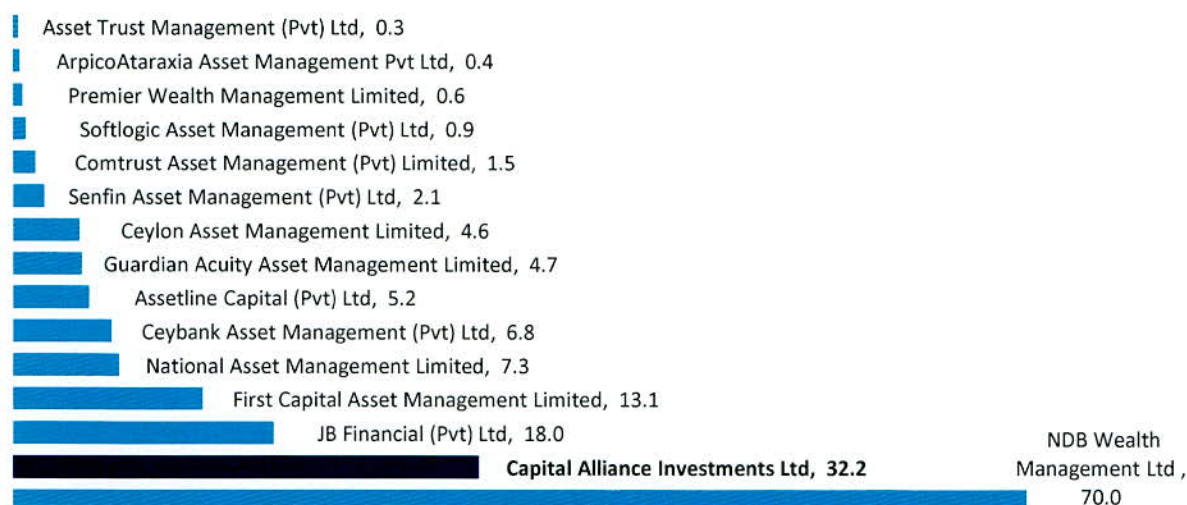

We specialize in originating, trading and investing: in fixed income and equity securities. Our focus on providing innovative solutions tailored to meet the needs of our customers has enabled us to build a reputation as "the Preferred Partner in Financial Markets."

Our strong fiduciary culture enables us to stay focused, first and foremost on our top priority, long-term investment performance. This core principle of our business, combined with advice-driven client coverage teams, has enabled us to build a leading client franchise that delivers superior investment strategies to our clients and strong financial performance to our shareholders.

CALI is a completely independent wealth management firm that works with a large network of Primary dealers, stockbrokers, Banks, registered Finance Companies and corporates to provide the best financial solutions to our clients. Our interests are aligned in every way, and as such, you can be assured of our complete and objective advice at all times.

Economic Review

Interest rate review

The commencement of FY 20/21 was challenging as is, with the whole Western province of Sri Lanka, being under strict curfew, due to the break-out of Co-Vid 19 pandemic. And with this, during the first half of FY 20/21, the economic activity and Private sector credit growth came to an almost standstill. Private Sector Credit Growth grew by only 0.9% in this period, while GDP stood at (16.3)% YoY in 2Q2020, and 1.5% YoY in 3Q2020.

The Government of Sri Lanka was thereby rendered to bring down the policy rates, in order to try to rekindle the economy; they had to continue their easing stance till the economy showed signs of pick up.

The Standard Deposit Facility Rate, and the Standard Lending Facility rate was brought down by 175bps in the first half of FY 20/21, while the Statutory Reserve ratio (SRR) was brought down by 200bps and the bank rate by 650bps; all actions which attempts to stimulate the economic activity.

This policy rate reduction was indefinitely reflected in the Government securities bond market, where rates fell by approx. 295bps for the 364 day T-bill, and similarly across all tenures.

Sri Lanka, continuing its stance on inflation targeting (4-6%), managed to maintain their CCPI and NCPI average core inflation at 3.0% and 4.1% in the first half of FY 20/21, with the main contributor being food inflation.

An interesting action taken by the Government of Sri Lanka in April 2020, was the extension of six month moratoriums to all loans, of citizens affected by the Co-Vid 19 pandemic and lockdown circumstances.

This stretched out the bank and finance company's liquidity position at the start of the first half of FY 20/21. However, with the reduction in SRR, the market liquidity improved by the end of this period.

The Government also encouraged banks to provide working capital loans at 4% to those businesses under friction from the lockdown. For this, the government subsidized an additional 4% of the interest rates for these loans, where the banks would then be able to finance these loans at an approximate rate of 8%.

To line up with our interest rate call, we have made investments up to tenures in which we see that there will be a turnaround in domestic interest rates. Thereby, we try to achieve the alpha return into the CAL unit trust funds, with the calculated credit risks being on the lower end, as we still are in a period of severe uncertainty, country-wise and global-wise.

External Economy and Other

The LKR depreciated against the USD by approx. (1.6)% during the first half of FY 20/21.

There was a restriction placed by the Government of Sri Lanka on the dollar outflows of the country. Imports were banned but could be bought into the country through a six months credit period. Corresponding to this, was the weakening USD due to severe money printing under the CARES Act of 2020.

Collectively, these resulted in a limited LKR depreciation impact in the first half of FY 20/21.

The gross reserves of the country fell by 11.5% in the first half of FY 20/21, owing to Sovereign bond & SLDB repayments, and to foreigners exiting their holdings in the equity and domestic government bond markets. Foreigners exited their domestic government bond holdings by a whopping (67.9)% in this period.

At the outset of FY 20/21, Fitch downgraded Sri Lanka to 'B-' from 'B'; while their outlook remained negative, mainly based on the hardships of raising external finance for Sri Lanka and widening country budget deficits. And by the end of the first half of FY 20/21, Moody's downgraded Sri Lanka by two notches; from B2 to Caa1, on the similar bases.
